

Features and benefits:

Knotwood's gate, fencing and privacy screen system has been designed for simple installation, there is no welding required. The Knotwood slats can be installed horizontally or vertically to create the look you desire. Using the knotwood concealed fixing system you will never see screws or rivets again.

Made from aluminium and finished with an imaging system to create the look of timber. Knotwood can't warp, split or crack and will never need restaining, making Knotwood systems virtually maintenance free.

- Fully Australian made and owned
- Environmentally friendly
- Never needs repainting or restaining
- Won't warp or dry out in the sun
- Can't be damaged by termites and other insects
- Won't splinter or crack
- Can be used in area's of extreme fire danger
- Can be used in area's of extreme cold
- Available Australia wide
